Flip This sheet over to tally insects! ----->
Turn this sheet in back to the table or
send to beecampusuga@gmail.com

Directions:

- 1) Please fill out the information on the front page to the best of your ability before beginning your observations.
- 2) Find a comfortable spot to sit and observe one flower for 15 minutes at a distance of about 1m (3ft).
- 3) Please use the table below to tally individual pollinators by type that visit the one flower you are watching. Pictures are encouraged!
**If a pollinator jumps between flowers on the same plant, please only tally once as this is the same individual!*
***However, if they fly to a different plant and then return, please tally again (record a new tally for a separate visit).*
- 4) Turn this sheet in back to the table or send a picture to beecampusuga@gmail.com
